Thank you Eric.

Can you offer any estimated time frame for shipping the remaining areas? I am traveling in PA this week but available next week if you want me to stop by your NJ office.

Good Evening Everyone:

Attached is the blending information for the material that shipped today, August 3, 2017. In addition, due to the amount of samples, I have also attached the document that outlines each sample within the disposal shipment.

The blending calculation is consistent with the approved method we have been using since we initiated our disposal with US Ecology.

Thanks.
